Brief Details.

On the 22/11/2018 at about 1130 hours, I came back to my car (Mercedes C180, Silver in colour) bearing the registration plate number SKL9527U and discovered that the front portion of the right side of my car had damages. I then noticed that there was a note placed on the windscreen of my car. The said note was from a fireman (HP: 82683874) whom had witnessed the incident. The said note stated that a Honda Vezel bearing the registration plate number SLA5943Z, had reversed and in doing so, it grazed my car. Thus, causing the above mentioned damages. The Honda Vezel subsequently left the car park.

I had parked my car park at the open car park (Car Park Number: BDCC10) near to Block 45 Chai Chee Street earlier in the day at about 0730 hours. Everything was okay when I left my car. The said fireman has a footage of the incident. However, the video isn't clear. My car has an in-car camera as well but it only starts to record when the engine is switched on. I am unsure if there are any CCTVs at the vicinity of where I had parked my car.
