Subject: Fwd: Undeliverable: Accident Involving SCH282A and FD7P Along Junction of Road 1 & 2 Mountbatten Road on 16 Nov 2018
Attachments: noname

I just sent you an email together with the documents and photographs requested in your letter of 23 Apr 2019.

Unfortunately, my email could not be delivered to you as shown in the response below from <postmaster@lkkauto.com>. Please let me have an email address that will enable me to forward the items to you.

Thanks and regards,

Chua Kim Chiu

Your message to vicalpeh@lkkauto.com couldn't be delivered.

A custom mail flow rule created by an admin at lkkauto.com has blocked your message.

Delivery not authorized, message refused

Blocked by mail flow rule

How to Fix It

An email admin at lkkauto.com has created a custom mail flow rule that blocks messages that meet certain conditions, and it appears that your message has met one or more of those conditions.

- Check the text above for a custom message from the email admin that may help explain why your message was blocked and how you might be able to fix it. For example, removing prohibited words from the message or sending the message from a different email account may be sufficient to deliver your message.

If you've tried and you're still not able to fix the problem, consider contacting the email admin at lkkauto.com to discuss what to do. While they're unlikely to remove or relax the rule, if you have a legitimate need to deliver your message they may offer guidance for how to do so.

More Info for Email Admins

Status code: 550 5.7.1_ETR

This error occurs because an email admin at lkkauto.com has created a custom mail flow rule that has blocked the sender's message.

In some cases, the sender can change the message so it no longer violates the rule. However, depending on the rule's conditions, it's possible that the only way to deliver the message is to change the rule itself, and only an email admin at lkkauto.com can do that. Although it's possible the rule is unintentionally flawed or it's stricter than the admin intended, it may be working exactly as they want it to.
