Good afternoon Chee-Heng,

The above matter refers.

Kindly be informed that we have contacted our Insured and was informed that their counter claim against Third party was successful (as attached).

Based on all the documents on hand, we opine that the liability is against the Third party as per BOLA 12 because there is clear admission from Third party that he was entering the Roundabout whereas our Insured driver was already moving along in the Roundabout. Please refer to the Third party's police report statement below for your easy reference.

Brief Details.

On 15/12/2018 at around 2130hrs, I was driving my taxi (registration number: SHC5746M) along upper jurong road and entering the round about. Out of a sudden, the other vehicle (registration number: YM7554H) travelling on the round about came crashing into my car and collided into the driver's side front car area causing my front bumper to fall off. Due to the collision, both my taxi headlights were damaged and the front right hood of the car is being badly damaged. I managed to alight from the vehicle and exchanged particulars with the other driver. Due to the accident, I suffered injuries such as back pain and was given 5 days medical leave. Subsequently, the Traffic Police and Police arrived at scene. I have in-vehicle camera installed in my vehicle however I am unsure if it had recorded the incident. I am unsure if there are any CCTVs near the area of the accident.

I am lodging this report for record and insurance claims purposes.

As such, we intend to reject the Third party's claim against our Insured.

Appreciate your approval/instruction.

Thank you.

Best Regards,
