Damage sustained by Honda Vezel SLG 805R on 17<sup>th</sup> December 2018 at Nos 15 Wan Lee Rd, Singapore 627945

I, 0189121I Cher Tze Kang wish to make the following statement regarding the damages sustained by my car Honda Vezel SLG 805 R while it was parked in my company's premises (OJJ Foods Pte Ltd ) on the 17<sup>th</sup> December 2018 at Nos 15 Wan Lee Rd, Singapore 627945.

At about 1645 hr that day, a colleague of mine, Ms Joyce Chong came to my desk and asked me to follow her down stair. She led me to the car park where my car was parked at the side of the fence next to the neighbouring company. I was shocked to see the damages on the front right hand side of my car and I asked her what happened.

She told me that the damages were caused by our company's fork lift which slid down the slope and hit my car. The fork lift driver was not on board when it happened. It was already moved away from my car by that time.

I proceeded to take photos and assess the damages. The right hand side of the front bumper and fenders were badly damaged. The weight of the fork lift also caused my car to move very close to the edge of the fence on the left. The right side door could not be opened smoothly. The rim of the front side wheel was also damaged and the wheel appeared out of alignment. The front drive shaft was also damaged.

As it was not safe to drive the car, I proceeded to call Sin Ming Autocare for a tow truck to tow my car to the work shop. That is all I have to say.

Yours Faithfully
