Dear Ms Jamie,

**ACCIDENT INVOLVING VEHICLES SJK 3091R AND SHB 7685Y ON 07/05/2013**

We refer to the above matter.

This is a conflicting version case where both drivers reported that the other car cut to their lane. However, no further evidence were available by both parties.

We had spoken to the insured where he confirmed that TP taxi did not follow the road marking and cut to his lane resulting in the accident. He was informed that there is a TP claim and in the event that there is no conclusive evidence to prove which vehicle cut lane, we may proceed to look into a 50/50 case in which he understands. Insured got witness who is a friend and a passenger at the material time.

The insured further informed us that he was disappointed by his workshop as authorized by AIG because they did not help him do a TP claim as this case is not a 100% case. The insured then told us that he got no choice but to claim OD to repair his vehicle.

Kindly assist to contact insured Mr Chee at 96916820 as he requested from AIG to speak to him regarding his OD claim as he was unhappy on why AIG authorized workshop is not helping him do a counter claim.

Thank you.

Kind Regards,  
Vic Alpeh Sanghilan
