Dear Mr Chew Hsiao Tong,

To enable you to see the real impact on the taxi, you can see the attached photo that I took from the video which is installed in our car, there was no damage at all. The taxi driver was not aware that inside our car we installed a camera and our car was behind him. The taxi driver was well and perfectly functional.

Due to the large size of the file, I cannot upload the video but I have given the video to AXA.

Dear Mr Chew Hsiao Tong,

Some more point to address:

1. The incident happened on 4th January, when did you inspect their car? It should be immediate, I believe, as I did on the next day.
