#### Brief Details.

On 09/01/2019 at about 9.45am, I was driving my car registration number SJZ5065A along KPE towards MCE, with my family. I was traveling on the centre lane and had just passed through the ERP gantry. The traffic was heavy and weather was clear.

We had just entered the tunnel (before Airport Road exit) and I had slowed my vehicle down due to the traffic in front of me slowing down. All of a sudden, there was a loud bang from the rear and it was later learnt that vehicle registration number SGU2023C had hit onto the rear of my car. I also discovered vehicle registration number SJH9034H which was behind car SGU2023C was also involved in the

accident and had hit onto SGU2023C first, with the impact causing the car to hit me.

When we spoke to the driver of SJH9034H, he informed that he was trying to avoid motorcycle registration number FBG2451H which was moving in a zigzag manner. I then realized that the rider was on the leftmost lane with his bike on the floor but I was not sure how he ended up in an accident. Traffic Police and Ambulance arrived and the rider was conveyed to hospital. I was advised to lodge a police report with in-charge case Ken Lee tel: 65476138.

No one from my car was injured in the accident. The rear bumper was misaligned while the boot was dented with slight difficulty in opening and closing.
