Brief Details.

On the 16/01/2019 at about 2000hrs I was travelling on my vehicle bearing, (SGK8058R) along changi road. I had a passenger at the passenger seat at that point of time. I was on the second lane of the five lane road. As I was travelling suddenly I felt a loud bang at the front right side of my vehicle. I then immediately stopped my vehicle. I then used some force to open my driver door and noticed that a male adult was lying on the road with an E-bike lying next to him. I assume that the male adult had rode the E-bike across the road without looking out for any vehicles and subsequently hit onto the front right side of my vehicle. The male adult was unconscious. I then immediately called for the police.

Shortly the ambulance arrived. After the paramedics conducted some treatment on the male adult the paramedics then decided to convey him. Traffic police also arrived at the scene. I then informed the traffic police of the incident. I then took pictures of the accident. I was not able to take the particulars of the E-biker as he was conveyed. The traffic police then advised me to lodge a traffic accident report. I have an in car camera installed in my vehicle. However I am not sure if the accident has been captured in it. I have already given the SD card of my in car camera to the traffic police.

I also came across a passerby who WhatsApp me a video of the accident which was captured from his rear in-car camera. I was also informed by the traffic police to WhatsApp the video to them. Both me and my passenger are not injured due to the accident. My vehicle sustained damages at the front right side due to the accident.
