Brief Details.

On the night of 15/1/19 Tuesday at around 2220, I was driving my vehicle SFV7001P along Tampines avenue 9 towards avenue 10 and as I was approaching the traffic light junction, the amber light turned red therefore I came to a stop behind the stop line. About 2seconds later a car bearing the car plate SMD3819K crashed into the rear of my car and my car roll a few metres forward. During that point of time, there was no pedestrian crossing. I alighted my car and went to attend to the car that hit my car. There was a driver and a passenger and immediately after attending to him, I began taking photo of the accident scene and also the Drivers particulars. We agreed to make the necessary accident arrangements and both car left the scene in order not to cause a jam. On the morning of 16/1/19, I felt numbness on my right shoulder and back and after completing all my personal work and stuffs, I went to see a doctor at KTPH A&E and was issued 3days MC due to a strain on the neck that was caused by the accident impact.
