Yes, as spoken we will fix the labour Cost to \$28,800 equivalent to 15 days on the Quote, this is provided the supplementary parts to add in is the one on Question mark on the list, so if there will be a new part which is not on the list it will be subjective if we need to add in any labour cost.

Circumstances of Accident

17 FEB 2019 AT around 10am, while on my way to brunch in town, met an accident with vehicle SLW6622C. While on the way to brunch, I stopped my car at side Changi Road waiting to join main Changi Road towards city (both side and main road are named Changi Road). I came to a complete stop and wait for one car to pass me and make a right turn, than I check and confirmed no cars in the first 3 lanes nearest to me and started to move out slowly to first lane. Out of no where, a black bmw cut across 4 lanes from the other side of the Changi road in a diagonally fashion and try to turn right in front of me. I was shocked and try to brake but could not brake in time and hit his side doors on the driver side. All these can be seen in the video attached from my car camera. After the first car pass me and turn right, I was very sure there was not more cars from lane 1 to lane 3 as it is a sunday morning with very light traffic. The BMW SLW6622C must have came out of a side road from the other side of Changi Road which have 5 lanes in total and try to do a short cut by cutting across 5 lanes over very short distance to turn right into the side Changi Road (hse number 531-541) as attached in the photos in this report.

SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

SLW6622C

location from photo
Changi rd 531-532

17 Feb 2019 at around 10 am, while on my way to branch in town, met an accident with vehicle SLW6622C. while on the way to branch, i stopped my car at side Changi road waiting to join main Changi road towards city (left side and main road are named Changi road). I came to a complete stop and wait for one car to pass me and make a right turn. Then i checked and car-pen no cars in the first three lanes nearest to me and started to move out slowly to first lane, out of nowhere a black BMW cut across four lanes from the other side of Changi road in a diagonally fashion and try to turn right in front of me. I was shocked and try to brake but couldn't brake in time and hit his side doors on the driver side. All this can be seen in the video attached from my camera. After the first car pass me and turn right, I was very sure there was not more cars from lane 1 to lane 3 as it was a Sunday evening with very light traffic. The BMW SLW6622C must have come out of a side road from the other side of Changi road which have 5 lanes in total and try to do a shortcut by cutting across 5 lanes over any short distance to turn right into the side of Changi road.

DECLARATION

I/We declare the foregoing particulars are true in every respect.
