#### Brief Details.

On 10/03/2019 at 1830hrs, my wife went to my Vehicle as she wanted to drive and she discovered that on the front left wheel compartment was dented and some scratches. I view from my in built camera that on the same day at about 1330hrs, a vehicle (Mazda) reversed and parked onto the lot beside me. I believe that this is the time they knocked onto my car as they took a few attempt to park into the lot and when they manage to park onto the lot , The vehicle wife who was waiting outside while he parking, went over to him and seem to have some conversation and subsequently they drove the vehicle off without parking anymore. I suspect they are the one who knocked and scratched onto my vehicle. There is CCTV around the Carpark. I still have the video recording with me however i am unable to view the car plate number.
