Brief Details.

On 27/3/2019 at about 0900, I was riding on my motorcycle bearing registration bearing JRT7003 along PIE towards Changi on the extreme right lane. On my right in the same lane is a red trans-cab bearing registration SHF726M. Out of a sudden before Thomson Road and Toa Payoh Exit 17D, the taxi swerved left. As a result, the front left side of the taxi collided into my motorcycle, and caused me to collide into a van bearing registration GBC1067L on the next lane.

I fell onto the road on the left side of my body. The taxi driver had alighted his vehicle to scold me. I do not remember exactly what he said as I was in pain.

My motorcycle sustained a broken left side mirror.

Traffic Police and ambulance were at scene. I do not know the report number as I was conveyed to hospital from scene. I was diagnosed with a dislocated left shoulder and a fractured left elbow.

I have a witness who was driving a BMW car (HP: 88092146).

My helmet and motorcycle are not installed with camera. From our scene photos, I noticed that a Toyota car bearing registration SJF2303M which was behind our vehicles, has an in-car camera.
