Brief Details.

On 29/03/2019, at about 2100hrs, I was at Shenton way road, third land from the right. The traffic light in front was red and hence, I had stopped my vehicle, SGS 425A, at the road, waiting for the green light. There were vehicles around me on both my left and right lanes.

From my rear view mirror, I noticed the car directly behind me approaching my vehicle without stopping. The vehicle, SKJ1507R did not stop and instead collided into me. My vehicle jerked forward but fortunately did not hit the vehicle in front of me.

I felt a bit of pain in my neck and shoulder area. I, then got out of my vehicle. The other driver stayed inside his vehicle. However, as we were chatting, the other driver refused to exchange any details.

I proceeded to call police for assistance when the other driver drove off. I managed to take a picture of the other driver and the car plate number. This is the first time I have encountered this driver.

I proceeded to check my vehicle and realized that the rear of vehicle was badly damaged and dented. The rear door and the bumper of my vehicle was damaged too.
