Dear Ms. Ong Li Li,

We have reviewed the video.

From the video, we noted that third party from the first lane overtook a row of cars that was stationary and changed back to the first lane and stopped as there was another vehicle (also noted by Insured driver) that had changed lanes from the third lane to the third party's lane.

eo (002)

We also noted that collision occurred when Insured driver whom was driving behind third party had also changed lanes and had head to rear end third party vehicle.

As such, we opine that the liability is down against our Insured for front to rear collision and for not maintaining safe distance.

Best Regards,

Khanchna | Case Handler

Dear Khanchna,

After reviewing the video footage at length, it is not possible to conclude, without a shadow of doubt, that accident is staged as all the vehicles were travelling at a slow pace.

Hope this would help.

This is my impartial opinion.
