Your email dated 3 April 2019 refers.

The video footage furnished by you is inconclusive. Do you have a longer version to show that SGW8997S had entered the junction and collided with our taxi? In addition, the document you had requested is not available.

Both vehicles should exercise caution when moving straight. Our view is BOLA Scenario 4 is applicable and liability is 50:50. Taxi insurers had also settled claim of SGW8997S at 50%.

Since we are unable to agree on liability, we shall escalate the dispute to GIA adjudication. Please inform your Principal. Thank you.

SAVE AS TO COSTS

Dear Ms. Aileen,

We note that both drivers reported green light on their favour.

Police officers attended the accident and our insured was able to submit a copy of his video right after the collision to the traffic police showing that the light turned green on his favour before he moved off and collided with your taxi (Copy of the submitted the same video to TPolice attached).

Observing the video which showed the traffic light indeed changed to green, we can conclude that this was in favour of our insured unless your driver is able to produce his evidence to prove his claim.

We would like to request for your driver's passenger's statement to support his claim on the green light for our review.

Thank you.

Kindly review subject matter which has remained outstanding.

The collision happened when both vehicles going straight across the junction. Both parties reported that the traffic light was in their favor.

In view of the conflicting reports and in the absence of conclusive evidence, we are prepared to settle the matter at 50/50. For your info, your insured's counter claim against taxi's insurer was settled at 50%.

Please review the matter for amicable settlement. Should AIG maintain rejection, please let us have your consent by 2 May 2018 to escalate this case to GIA for resolution.

Thank you.

Dear Joy

The video clip was not conclusive. Also, our driver reported that the accident happened on 20/03/2015 at about 11:55hrs but the video was dated 01/01/2011.

Our proposal of 50/50 is fair. Your insured's counter claim was also settled at 50/50.

Should your Principal maintains rejection, please arrange to let us have your Principal's consent by 28 February 2018 to escalate this case to GIA for resolution.

Thank you.

Dear Zayer

We refer to your email below.

1. The photos are not conclusive.
2. The damage on taxi was confined at the right rear portion of taxi.
3. Your insured counter claim against taxi's insurer was settled at 50%.

If you insured is not able to furnish conclusive evidence, please settle our claim at 50/50 as conflicting versions statements were lodged.

Please revert by 17/10/2017.

Thank you.

Dear Cecilia,

Upon receiving the video footage from our insured, it shows that traffic light was red initially and he did stop at the junction until green light appeared.

However, due to accident, the video footage later parts was corrupted. We also attached screen shot from video footage for your reference.

We will retrieve the video footage in our data base and forward it to you if found.

Dear Zayer

Please refer to our email of 20/02/2017 & 07/03/2017.

Both parties were reported that the traffic light was in their favor when they were going straight accross the junction. Without conclusive evidence to support your insured's allegation, your rejection is not acceptable. In fact, the damage on taxi was confined at the right rear portion suggests that the taxi was in front of your insured driver, which he would have been able to see. The accident could have been avoided if your insured driver had kept a proper lookout.

Please review your position and revert by 15/08/2017, failing which we shall have no alternative but to proceed with next recourse.

Thank you.
