Brief Details.

I am a Grab Driver, vehicle registration plate number SLM3052U. On 25/05/2019 at about 0044hrs, I picked up 2 passengers from EFG Bank Building. After that I proceed to Park Lane to pick up another 2 passengers. After picking up them, I started the journey towards 601 Senja Rd.

While travelling along Bukit Panjang Rd, at the T-junction of Gangsa Rd, as the traffic light turned red, I stopped my vehicle just before the stop line. I noticed from my rear view mirror the van (registration plate no: PC7988Z) was moving towards my vehicle and no sign of stopping. However, it was too late before I could react, the said van collided into my car rear.

After the accident, I called for police assistance. 3 of my passengers complained of neck pain. I did not sustain any injuries. My car's bumper and rear part of the vehicle, including the rear doors was badly damaged. I am unsure if there are any further damages. But I was unable to start my car.

I was advised by police to lodge a Traffic accident report.
