Brief Details.

On 25/05/2019, at about 1700hrs, I was driving along Newton Flyover towards Rochor.

At that point of time, the traffic at the said location was quite heavy. Hence, the traffic was very slow. While I driving, I noticed that the car in front of my stop, and I followed. As my car had come to a complete stop. I felt a knocking impact from the rear of my car. I then see the rear mirror of my car, and saw the driver at the back of my car was apologising to me.

I then went down of my car, and realised that my car was knocked by another car (SLM7209J). There are 2 dents at the rear bumper of my car. While the front bumper of the car behind my car was slightly dented. We then took photos of the said incident and left the scene.

When I went back home, I realised that the back of my neck was in pain, I then took pain killer and went to sleep.
