Dear SI Peh

The work flow for such e-scooter cases, is that the e-scooter will be brought to an external shop located in Ang Mo Kio, where testing of the battery of the e-scooter will be done to check on its max power (in other words top speed); check for any modification like additional battery; checks on the operational behaviour of the brake system. A written report of my observations and findings will be put up thereafter.

For e-scooter inspections, our fees will be \$450/- (excluding GST).

Best Regards,
Bryan Ang
