Brief Details.

On 13/06/2019 at about 2300hrs, I was driving my said vehicle (SDV9909G) and have just reached the X-Junction of Hougang Street 51 and Hougang Avenue 4. I was on the right most lane as I was going to make a right turn. While observing the oncoming traffic I saw that there was one car left and as such I decided to make a right turn after the last car have cleared the road. However, before I could complete my right turn, I suddenly saw one motorcycle bearing FBF1839K coming from the opposite traffic. As everything happened too sudden, both myself and the rider was unable to stop on time and as such the front of the motorcycle collided with the left portion of my vehicle. My vehicle suffered a dent on the left body, front left rim damaged and spider-web crack line on the windshield. I was unable to identify the damage of the motorcycle as it was down on the road.

I went down to make a check on the rider who was lying down on the floor. He complained pain at his head and I myself observed that there was bleeding coming from his mouth. One passerby also called for ambulance and soon after medical staff arrived and attend to us at scene. The rider was then conveyed to Sengkang General Hospital. Traffic police was also at scene and interviewed all parties. They also took my SD card which contain the footage of the said incident.
