Brief Details.

On 18/06/2019 at about 0015hrs, I was driving my said vehicle: SHF649C along this Lavender Street towards Crawford Street. While I was approaching the junction, I noticed that there traffic light was turning red in my favor and as such I slowed down my vehicle and came to a stop at the junction. I was in the center lane and there was another vehicle bearing SLH8636D on the first lane. When the traffic light turned green in our favor, both of us proceed to accelerate forward while travelling side by side. After we have passed the junction however, without warning the said vehicle suddenly swerve into my lane. As everything happened too quickly, I was unable to avoid him and as a result his vehicle side swiped my car. We both parked at the side of the road to make a check. I observed that my driver side door was damaged by the collision while his vehicle body above the front left wheel suffered dent and scratches. None of us mentioned of any pain and discomfort during the point in time. Both of us exchanged particulars and left the scene.

It was only when I woke up that I feel pain and discomfort on my neck and shoulder region. As such, I made my way to the clinic to get a check and was given 3 days of MC. I wish to inform that there is a camera inside my vehicle but I am unsure if it managed to capture the said incident.
