Sketch Plan #2

SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 5/11/19 at about 2300 hrs I was travelling the 2nd lane along Delta Rd towards Bt Merah. There was a merging lane between lane 1 and 2. And I saw the driver and veh C, moving towards the merging lane. So I decided to flicker out. I was in the midst of flicking when veh B braked. I was unable to stop in time and collided into veh B. When I righted from my vehicle I realized there is was a chain collision involving a total of 3 vehicles. My vehicle sustained damage to the front portion as we was injured.

DECLARATION

I/We declare the foregoing particulars are true in every respect.

Subject: Audatex - Labour differences on SLB4259S

Dear both,

Regarding Veh SLB4259S, there are some labour differences between Shu Fatt estimate and LKK adjusted estimate. Based on the conversation, the adjustment was only done on special nett items without any other parts change. We noticed the difference and we are looking into it urgently.

To expedite the matter for both parties, I seek permission from LKK, Denis to allow me to do some manual adjustment on Labour Difference. There are 16WU different and I have included them under labour section.

I hope it will speed up the whole process while we are investigating the case. Please see attached adjusted report.

Thank you for your support and understating. Feel free to reach me for any queries / assistant.

Best Regards,

Tomy
