SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 12/7/19, at 2130 hrs, I was driving my car, SLH 94482 towards TPE towards SLE. I was driving at around 85 km/hr, suddenly, the car in front of me did an emergency brake. I saw and came to a complete stop. I saw both and slammed my brake immediately. However, the car could not brake in time. I briefly remember the car at impact was around 40-50 km/hr. The air bags came out and I did not sustain any injuries. I came out of the vehicle to check if the person from car B was alright. The driver apologized and said the car in front of him jammed brake and so he jammed brake as well. He had a passenger with him, and the passenger is a guy. We took pictures of each others' cars and particulars. He claimed that his passenger is not feeling well and wants to go home quickly. He left before the EMAs and police came. I waited for the police and tow to come. They towed my car to a carpark in Anchorvale, took my statement and left at around 2230 hrs.

DECLARATION

I/We declare the foregoing particulars are true in every respect.
