DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 25th July 2019 at 1:00 I was driving my vehicle SIS3226D.

to ferry my sister back to my house whereby I was a resident too at 31 Jalan Bunga Rampai. The place is a school zone being just opposite the school gate and was a residential estate with lowered speed limits.

I stopped my car in the middle of the road outside my house gate.

The position of my car was perpendicular and was positioned in the middle of the road outside my house gate. I was completely stationary as I checked my surroundings. As my house gate opening was only of suitable width for a wide angle turn in. Hence the position of my car in the middle section of the road. I was from the major road turning in to my

house gate.

I proceeded to switch from drive to reverse gear while having

checked my right, left and rear. Acknowledging that on my right

was a blue mercedes at some distance away, and deemed that there was

insufficient space

and appropriate to reposition the car to enter my house.

for oncoming traffic to pass me from behind,

Despite my car being in the middle of the road and with my reverse lights displayed other party took the risk, speeded up and I felt

a huge impact following the collision into my right corner

rear bumper. After the incident, third party also mentioned she was

in a rush to the hospital and hoped I let her off in exchange. My Car position is

as off where the accident occurred.
