#### Brief Details.

I was traveling to work via CTE towards the city on my motorbike. The rain was slowly road was still wet. As the traffic in the highway was quite heavy, I was slowly cruising in the right lanes. It was after the ERP gantry in CTE that I think the accident happened. It happened so quickly that I did not know who hit me. I lost consciousness after awhile and was brought to Raffles Hospital. After the X-Ray the doctor said I fractured both my right arm and right leg. I believed that I was hit by a vehicle filtering from the left lane to the right lane.
