Brief Details.

On 12/08/19 at about 1430hrs, I was travelling in my vehicle SJU2475X carrying 3 other passengers, along TPE and was exiting the expressway unto Exit 9 heading towards Punggol Road. As I was exiting, I noticed a vehicle approaching from my right that was travelling very fast, as such I decided to slow down and came to a stop. As I did so a vehicle bearing license plate SLA3862L, hit the rear of my vehicle. I then made a check and saw that I had a cut at my right eyebrow and started bleeding, I then made a check with my passengers but they were alright. I then got out of the vehicle and checked on the other vehicle and the driver and I then exchanged particulars. Subsequently, I then went to Sengkang General Hospital, and received treatment and was given 6 stitches.

This is the first time such an incident has happened and I am making this report for my own record purpose.
