To Whom It May Concern

On August 11, between 4.15 pm to 4.30 pm, I was travelling along South Buona Vista Road, the winding road towards NUH direction. As my car was approaching the cross junction where Stockport Road was on the left and Kent Ridge Road on the right, I continued to drive on as the traffic light was signaling green, which meant that my car has the right of way to drive past the junction.

At this time, Mr Alex Chua's car, SLW 7163D was ahead of me by perhaps 30m. As my car was near the traffic light, I saw an oncoming car, SKK 7040A making a right turn, with no sign of slowing down. I was shocked, sounded my horn, and jam braked my car. In a fraction of second, I witnessed the turning car hit into the straight driving car, that was, Mr Alex Chua's car. At this time, I think my car probably drove past the traffic light line by approximately 1m.

As the accident took place on the road ahead of my car, blocking my way & vision on oncoming traffic, to drive to the other side safely, I decided to turn right into Stockport Road, made a 3-point turn, and turned right to get on to the other side of South Buona Vista Road. I then stopped my car at the road side, got off my car, and signaled to Mr Alex Chua. I told him that I could be the witness of this car accident. As I was giving my contact details to Mr Chua, SKK 7040A driver and his companion also walked towards the road side from their damaged car. I raised my voice a bit to tell them that I witnessed the accident, and could be the witness if needed. But they seemed to be pretty shaken, and might not have heard me clearly as they show no response.

I left the scene after Mr Alex Chua took down my contact details. The time was about 4.43 pm.
Thank you.

Yours Sincerely,

Chae Jean
