Brief Details.

On 27 June 2019 at about 8.45am, I was driving my rented car bearing registration plate number SJY1178P along SLE towards BKE. I was driving on the first lane of the road. While I was driving, the car bearing registration plate number SLG9191T in front of me applied his brake therefore I applied my car brake as well however I could not stopped in time and collided onto the rear of SLG9191T which caused the rear bumper to be dented.

Shortly after I collided the car in front of me, I felt an impact coming from the rear of my car. I then exited my car and discovered that the car registration plate number SFA585C had collided onto the rear of my car. There were a total of 5 vehicle involved in this accident including my vehicle. The 5 are as follows:

- 1) SLG9191T
- 2) SJY117P
- 3) SFA585C
- 4) SLP1681B
- 5) SLR2896G

After the accident, I felt unwell and went to Singapore General Hospital for a check. I was given 4 days of MC by the doctor.
