Hi Viv

I do not and will not accept the liability, base on the impact he is at fault. If needed can we go for a legal. I have not repair my car as I want to show the impact direction is clear he hit us.

Dear Andrew,

We refer further to our below email.

In view of no evidence from both parties to support their version of the accident, we are of the view that this matter could be settled on a 50/50 basis. Which means, whatever the claim from the Third Party claimant, we only offer at 50%.

However, we take note that you are also making a claim, please advise if any update from your workshop with regards to your claim against the insurer if the vehicle SLK 2791L.

Thank you.

Hi Vic Alpeh,

I received your letter stating that you are representing AIG in our claim against SLK2791L.

I have attached the report I made of the accident, for your perusal.

I had a conversation with Jumaat the driver, and he mentioned he has a video of the collision, so please request that from him, so you can ascertain who is at fault. As he hit my car on the passenger door side, my video cannot capture the impact. Also my car video recording last for 30 minutes and thereafter over ride with new video.

Please keep me informed.

With warm regards,

Andrew Wee

Dear Sir,

The letter is to notify you that the other party has filed a claim against your policy and your insurance company has appointed LKK to act on behalf of your insurance company to find out more details on the accident before commenting on the liability to the other party.

You may want to inform LKK that you have reported the accident as per attached and LKK will do the necessary. You may want to provide any additional information to LKK which may be useful in their investigation.

Thank-you.

Hi Yue Meng,

As he hit us on the middle left side we do not have any video, the sketch is the best we can do. For the driver of the other car, ask him for the video as he would have the video and it would be very clear the impact is from him. He mentioned to me when we were discussing the claim that he has the video of the collision, however he did not let me see. I guess He would not produce as it is evident he hit us.

Please ask for his video, thus its clear how the impact occurred.

With warm regards,

Andrew Wee
