Brief Details.

On 02/07/2015 at about 8.50pm, I was travelling on the right lane of 2 lanes dual carriageway Pasir Ris Drive 4 towards Pasir Ris Drive 3. While I was travelling straight near to the entrance of SPC Petrol Station, an oncoming taxi SHD3087P came from opposite direction and turn in into SPC Petrol Station without giving way to me. I could not stop in time to avoid the collision thus crashed onto the taxi left side front portion. I was flung onto the taxi windscreen and onto the road ahead a few metres. I was then warded at CGH for head injuries and swelling on arms and legs.

7 RECOMMENDATION

Apart from damages to the body panels, lightings and mechanical components, the main chassis frame of the vehicle was seriously damaged in the course of the collision.

The chassis frame was bent, twisted and distorted. This chassis damage cannot be structurally repaired to a roadworthy condition as it is unsafe to cold work the frame back to its original strength and integrity.

Replacing the damaged chassis cannot be done as it is prohibited by LTA.

Therefore, it is necessary to treat the vehicle as a "Total Loss" instead of repair.

In establishing the pre-accident market value of the vehicle, calls were made to a few second hand motorcycle retailers but no quotes were obtained as these retailers were not trading in KTM motorcycles.

A check with SGBikeMart revealed that a similar make/model of vehicle registered on 17 June 2014 was selling for \$15,888.00.

However, the sole distributor M/s Dirt Wheel Motor Trading had quoted a pre-accident market value of about \$13,500.00 which we believed is a fair and reasonable value.

Hence, it is recommended that the vehicle be treated as a "Total Loss" at the pre-accident market value of \$13,500.00

Yours faithfully
