The vehicles could have moved from the point of impact thus the position of the vehicles in the after accident photos.

There is no accident video footage to support either parties version and the accident versions are conflicting.

As such, we maintain our proposed settlement on a 50% basis for global sum of \$2,877.00(all in).

Please confirm acceptance.

Hi Khanchna,

Thank you for your prompt reply.

1. The photographs which we had provided were directly after the accident while they were still in their existing lanes without driving to the road shoulder. Do note that your principal insured's vehicle was driven to the front of our client's vehicle while our client's vehicle was at the point right after the accident.

2. Please see your principal insured's photo as attached. The primary damages were at the front left fender and bumper and the side mirror. As such, based on both parties' damages, it was unlikely to be a side swipe case as per your principal insured's version.

Therefore, we appeal to you to review the case again.

Thank you.

Hi Khanchna,

Thank you for your email dated 07 January 2020.

We had spoken to our client, he is unable to accept your offer of 50%.

1. The photographs were taken right after the accident.
2. If it were to be a side swipe case,
 - a) your principal insured's vehicle would not be in front of our client's vehicle right after the accident.
 - b) our client's damages were on the right side door while your principal's insured's damages were left front fender.

Therefore, it is not considered a side swipe case.

As such, appreciate if you can review the case again and let us have your offer based on the following: -

Cost of repair: S\$5,350.00

LTA: S\$ 2.00

Loss of use: S\$ 900.00 (S\$180*5 days)

Total: **S\$6,252.00**

Thank you and look forward to your positive response.
