Brief Details.

On 05/10/2019 at about 1710hrs, I was driving my vehicle SJJ5085B along Jurong Town Hall road at the third lane towards science centre. I was driving at a slow speed on the road and there was a vehicle SJQ5124K in front of my vehicle. The vehicle SJQ5124K make a brake as there was a bus filtering towards the third lane.

I also applied brake but still moving slowly but subsequently I felt an impact from the rear of my vehicle and I quickly stepped on my brake. I then stationary stopped my vehicle. I then check with my passenger if she is alright and she informed me that she is alright. I then stepped out of my vehicle to make a check. I discovered that I had an accident with a police vehicle QX529P.

I spoke to the police officer who drove the vehicle what happened however he informed me nothing. He only requested for my particulars. The other police officer came over and asked me if I am alright. I told him that I felt numbness at the back of my head area.

After a while, the traffic police came and took the police officer particulars and my particulars. I asked for the driver particulars however he asked me to speak to the traffic police. I asked the traffic police and he informed me not to worry and they will investigate. We took photos of the scene.

I have an in-build car camera in my vehicle viewing the front and the accident footage was captured. I send the accident footage into my mobile phone. I then showed the accident footages to the traffic police and he recorded it by using a mobile phone. The traffic police gave me a case card D/20191005/0096. The traffic police then advise me to lodge a traffic accident report.

I was unable to drive my vehicle anymore. I called Grab and informed about the matter. Grab then find another driver to fetch my passenger. I called my insurance about the matter too and they arrange a tow truck came and took over my vehicle.
