**Brief Details.**

I am a relief taxi driver for Transcab. On 11/10/2019 at about 8.32pm, I was driving my taxi bearing registration number SHC5628X, Renault red colour. I was travelling on the extreme right lane along PIE towards Tuas. Upon reaching Eunos flyover, suddenly the car in front of me jammed brake. Immediately I applied my brake and managed to stop just in time to avoid any collision. Unfortunately, once my taxi came to a stop, suddenly I could feel that my taxi was being knocked from behind. I came out to make a check and realised that it was a chain collision involving three vehicles. One black Honda Vezel, bearing registration number SJD4959T had knocked onto the rear of my taxi and another vehicle, one silver KIA Cerato Forte bearing registration number SMA4431D had knocked onto the rear of the said Honda Vezel.
