## SINGAPORE ACCIDENT STATEMENT

### IMPORTANT NOTICE

1. Please report correctly the details of the accident to speed up the claims process.
2. This Form must be completed by the Policyholder and/or the Authorised Driver.
3. Information provided must be as truthful and accurate as possible. Any wilful misrepresentation or withholding of material facts may allow insurance companies to repudiate policy liability.
4. The issue and acceptance of this Form by insurance companies is not an admission of policy liability on the part of the insurance companies.
5. Any false reporting may be referred to the Police for investigation.
6. This report will be forwarded by the insurers of the GIA Records Management Centre established by the General Insurance Association of Singapore (GIA) for archiving and that copies of this report will, for a fee, be made available upon application by interested parties.
7. By the lodgement of this report to the insurers, you hereby consent to the archiving of this report at the centre and to copies of the report being made available aforesaid.

## QUESTION 1

1. The first part of the question is about the definition of a function. A function is a rule that assigns to each element of a set  $A$  exactly one element of a set  $B$ . In other words, a function is a mapping from  $A$  to  $B$ .
2. The second part of the question is about the domain and codomain of a function. The domain of a function is the set of all elements that can be mapped to by the function. The codomain of a function is the set of all elements that can be mapped to by the function.
3. The third part of the question is about the range of a function. The range of a function is the set of all elements that are mapped to by the function.
4. The fourth part of the question is about the image of a function. The image of a function is the set of all elements that are mapped to by the function.
5. The fifth part of the question is about the pre-image of a function. The pre-image of a function is the set of all elements that are mapped to by the function.
6. The sixth part of the question is about the composition of functions. The composition of functions is a function that is formed by applying one function to the output of another function.
7. The seventh part of the question is about the inverse of a function. The inverse of a function is a function that reverses the mapping of the original function.
8. The eighth part of the question is about the identity function. The identity function is a function that maps every element to itself.
9. The ninth part of the question is about the constant function. The constant function is a function that maps every element to the same element.
10. The tenth part of the question is about the linear function. The linear function is a function that maps every element to a unique element.
11. The eleventh part of the question is about the quadratic function. The quadratic function is a function that maps every element to a unique element.
12. The twelfth part of the question is about the cubic function. The cubic function is a function that maps every element to a unique element.
13. The thirteenth part of the question is about the exponential function. The exponential function is a function that maps every element to a unique element.
14. The fourteenth part of the question is about the logarithmic function. The logarithmic function is a function that maps every element to a unique element.
15. The fifteenth part of the question is about the trigonometric function. The trigonometric function is a function that maps every element to a unique element.
16. The sixteenth part of the question is about the hyperbolic function. The hyperbolic function is a function that maps every element to a unique element.
17. The seventeenth part of the question is about the elliptic function. The elliptic function is a function that maps every element to a unique element.
18. The eighteenth part of the question is about the theta function. The theta function is a function that maps every element to a unique element.
19. The nineteenth part of the question is about the zeta function. The zeta function is a function that maps every element to a unique element.
20. The twentieth part of the question is about the gamma function. The gamma function is a function that maps every element to a unique element.
