SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

At 2pm, 25 October, I left my office to the parked car which was parked in the building's loading bay which we had authorisation from the building management to use. I saw the damage on the car and proceeded to call the Traffic police to report a hit and run. The Traffic police came down and reviewed the in-car camera footage as well as the damage to the car. Through the footage from the in-car camera, we were able to see and identify the company and vehicle number that caused the damage. The video captured the driver and his assistant. We then proceeded to call the company of the vehicle shown in the footage and the company informed me that they would check and get the driver to contact me. The driver called me shortly after, approximately 5 mins after he put the phone down and he admitted that he hit the car. We asked him to come down in person which he did and he admitted hitting the car in front of the 2 TP officers present. The TP officer then asked the driver to collect his lorry that hit my car so that I can take pictures as evidence. The driver drove the lorry back to my location and I took pictures of the damage on the lorry as well as the driving license of the driver who was an employee of M&Q logistics company. The driver also informed both myself and the TP officers that he had informed his company of the accident and I called the company to verify that this was true.
