### FACTS OF CASE:

I Benjamin Kwee Wei Jie am the owner and driver of vehicle number SJK 7251V which had caught fire on 29/10/19 at 1840 at Block 443A BT Batok East Ave 8. On the day of the incident, I was from Town and I was headed to my mother-in-law's place at the above mentioned location. I was travelling on Dempsey Road all the way to Bukit Batok. There were no warning lights displayed on the speedometer. The temperature was normal. The vehicle was functioning fine. When I reached the location, my mother and father in law were downstairs. I drove forward to reverse the car in. As I stopped, they alerted me to smoke emitting from the bonnet. I also saw the smoke from the centre of the bonnet. I immediately stopped the car, switched off the engine and released the front bonnet hatch. When I walked to the front of the car, I saw fire from the rear of the bonnet. When I opened the front bonnet I saw flames at the left portion of the engine, where the battery and fuse box were located. I tried to take a fire water hose nearby the carpark but it was too short.

Fortunately, a rider who was passing by the incident location quickly

### STATEMENT

went to the car park and got a fire extinguisher and helped me to put out the fire. After the fire was put out I called my own workshop but they were not the FWD authorized workshop. So I called the FWD hotline and they gave me a list. I chose to tow my car to Ah Lim Motor as they were near BMS Motorsports which specializes in Subaru cars. The tow truck arrived in an hour and my car was towed to Ah Lim.

The next day, on 30/10/19 I went to Ah Lim but they told me to make an insurance report. They told me to make a police report so I made a police report at the BT Police NPC at 1225 hours. I took a photo of the RPA and forwarded it to Ah Lim. I took a video post incident. No photos.

I bought the car last year from a private owner. The owner had already owned the car for 10 years. I drove the car for exactly a year. I am the main driver of the car. My wife drives the car occasionally. Throughout the 1 year, there were only normal wear and tear issues with the car, nothing major. The last periodic service was done in mid-September 2019. I changed the engine oil and noticed the oil at Lion Hong.

When I bought the car, I was aware that the car came with a Fujitsubo after-market exhaust muffle, a touch screen DVD player, a turbo timer, sprakes, twitters and a subwoofer. I did not add any electrical or electronic components to the car. These components did not affect the vehicle at all. I only changed the tires to an after-market brand 17 inch alloy rims.

I wish to state that at the time of accident, I did not consume any alcohol or medication that will impair my ability to drive.

I wish to affirm that the above statement is true and correct at the time it was written.
