Brief details.

On the 15/11/2019 at about 2100hrs, I went down to the carpark where I parked my Toyota Hiace van (GBF545P), unlocked my car and entered the car. Upon entering the van, I realised that my left side mirror was shattered and partially detached from the connector. I also realised the left side body near the front left wheel had several scratch marks and was scratched deep.

I am unsure of what happened and it might have been construction works that were carried out that

caused the damages.

When I parked my van at the carpark at 1600hrs, the van had no damages whatsoever.

I then removed the mirror and placed it inside my van.

I have been driving this van for about 2 years, and this is the first time such incident happened.

I had my side mirror replaced as I needed to drive it. The cost of the side mirror is about SGD\$50/-.

I wish to lodge this report for recording purposes as my insurance company informed me to do so ASAP.
