Brief Details.

On 23rd November 2019 at about 1615hrs, I was driving my vehicle (SKU7239S) traveling along PIE towards Tampines Street 83 (next to Eunos Exit), on my way home. Suddenly the vehicle in front of me jam his brake. I felt a strong impact from my rear vehicle, then I realize one vehicle (SKQ1600T) and collided onto my rear portion of my vehicle. Due to the impact, my vehicle moved forward and hit onto (SGZ3274L) rear portion.

After the accident, I came out of my vehicle. Then realize that there are a total of 4 vehicles involved in the accident. I felt some pain on my body so I went to Mount Alvernia Hospital for medical treatment and I was given 5 days of MC.

I wish to state that due to the accident my front and rear portion of my vehicle is badly damaged.
