Accident Sketch Plan

Describe the Circumstances of the Accident

I was driving and the petrol light was on - a sign that petrol levels are low.

But, normally (I have this car over 2 years) it says how far you can still drive with the car, but it didn't. So I thought I'd drop off my child at home and get petrol around the corner later.

Suddenly, when we were almost on top of the hill at Rebecca Road, and on the crossing with Bin Tong Park, the car stopped entirely.

I put it on the handbrake to examine and put my warning signal lights on. Half of the car was over the hill. The other half needed 50cm. I thought it was safest to get the car off the dark crossing as in this position, it was a big hazard for traffic coming down Bin Tong Park. Rolling it to a safer area to Park seemed the best idea.

So I put it in neutral and tried to roll it down, but then it started rolling very fast and the handbrake couldn't hold it. Since I got scared it took me a while to push in fully.

I had to steer when driving/sliding backwards and be careful not to hit anything.

I managed to get it to stop at the pavement but the back wheels went onto the pavement and one wheel ended above the small water drain.

The right back wheel stayed on the pavement. The two front wheels on the road. It stopped and didn't hit anything and no-one was hurt. The car was stable and not angled. We got out safely and the car stood in good balance on 3 wheels: two front ones and right back one. Pushed handbrake in further and shut down car and called GoldBell accident line.

They arranged a tow away car.
