Hi Jeremy,

I had spoken with Mdm Mary Wong (Insured) and was advised that the accident claim had been settled. She had received the cheque payment for the repair of her vehicle by the TP insurers. She also rebuffed the TP's allegation of her husband (Insured driver) alcoholic breath. She claimed that her husband did not consumed any alcoholic drinks prior to the accident.

I have conduct /reviewed the documents pertaining to this claim and based on my review, I am unable to find any evidence suggesting that Insured driver was under the intoxication of alcohol at the time of the accident.

Based on the above finding (exclude the police finding), I have no reason to prevent you from settling this accident on fair and reasonable terms. However if during the final assessment if you find new irregularities you may forward back this file for our further review.

Do let us know if you have other matter to discuss.

Regards,

Mohamad Nazri Ahmad
