Subject: Quotation for mechanical inspection

Dear Mr Bryan,

As spoken earlier, we would like to seek your company's expert assessment of a forklift (**5-ton Komatsu Model FD50-5**) that was involved in an accident by way of conducting a mechanical inspection. We would also like the same inspection be done on another forklift which were involved in the work, i.e. a **6-ton Mitsubishi Model FD60**.

2. The accident happened when a forklift operator was about to lift a load using the Komatsu forklift. He drove the forklift towards the load while at the same time raising the fork when suddenly the forklift surged forward, crashed through a barrier and fell about a meter down onto a slipway of the shipyard. The load and the forklift struck a worker who was walking there.

3. Do advise if you need additional information. We thank you for assisting us in our investigation.
