Brief Details.

On the 03/12/2019 at about 1230hrs, I was travelling along PIE exit 38 and had parked on the right side 3rd lane near the lamp post 1906 for road works to be done. I had turned on the left right arrow for both lanes beside me as there were work to be done in front. I then suddenly felt a loud bang at the rear in which my vehicle moved forward and came to a stop after. I then came out to make a check and saw the other driver was unconscious and I could not get to him as he was stuck inside and other people had called for ambulance and civil defense. I then took pictures of the scene first and SCDF had came to scene shortly after to rescue the other driver out before they convey him to hospital. I had talked with the traffic police and was informed by the police to make a police report in regards to it. This is the first time such incident has happened to me. I do not know how the other driver had collided into my rear.
