SKH8877L.PDF; 1432_001.pdf;

I am the driver of SKH 8877L.

After having thoroughly checked all blind spots, I had started to reverse with my hazard light, ON.

The other vehicle, in his haste to pass through, could not wait but tried to squeeze through the narrowing space, due to my reversing.

Due to his impatience, he consequently ran into my vehicle.

The driver of SJV 1595J recklessly assumed that he could slid through the narrowing gap and NOT WAIT for me to complete parking my vehicle.

Best Regards

Rajandran
