Hi Mr. Chan,

We receive your letter dated 13th October 2020 regarding the accident involving SMM4554U and SLM8718A on 20th September 2019.

My wife – Ms. Ong Woon Ai is the registered owner of SMM4554U.

We reject the claims made by SLM8718A based on the following reasons:

1. SLM8718A was filtering right across two lanes from the left most lane from behind. They have a clear view of our car filtering left yet the driver continue with the filtering to collide with us.

<image002.jpg>

2. Based on the video (which we will attached separately due to the file size), we have already started signaling and made our intentions very clear to SLM8718A unless the driver of SLM8718A is not watching the road traffic.

I understand the driver of SLM8718A is a private hire driver and she could be pre-occupied with the hire-riding apps with potential bookings at hand and is distracted from the roads.

3. My car has already filtered more than half way into the left lane before SLM8718A came in to collide with my car as seen in the picture below.

<image003.jpg>

<image004.jpg>

4. SLM8718A has a front view camera installed. If they feel that they have a legitimate claim, I would like to request for a copy of their front cam video prior to collision which I am confident will show that SLM8718A has a full view of my car's signaling and making the filtering.
