Dear Stacey,

Date of accident on 4/4/2014 involving vehicles SGM 8938R & SHC 5209Y

We refer to the below email.

Third Party reported that he was travelling on the 2nd lane along West Coast Highway towards City. While travelling, the insured vehicle from 3rd lane tried to cut into his lane and hit onto the left front of taxi. Then

another vehicle (SGY 5065R) came from the the 1st lane and collided into the rear portion of vehicle. Please find the attached statement.

The insured reported that he was travelling along Jalan Buroh on the extreme left lane of 3 lanes. After West Coast Highway, our of a sudden, he felt a strong impact from rear right portion of vehicle. After he alighted, it was 3 vehicles involved in the accident as a chain collision. Please see attached OI's statement.

We did call OID to verify the nature of accident. OID mentioned that he was travelling straight all the way and was hit by TP's from the 2nd lane. Total of 3 vehicles chain collision.

We have reviewed both reports. Basing on the reports from both parties and circumstances of accident, the scenario falls under BOLA 28g. Refer to the attached.

As above mentioned, we are of opinion that third party should claim against to the insurer of SGY 5065R and our insured is not liable for the accident.

As such, we will inform the TP to redirect the claim to the insurer of SGY 5065R in view of BOAL 28g. Kindly let us have your approval / instruction.

Best Regards,

Zayer | Case Handler
