Subject: RE: Our ref:MSC/V/20-000019 TP SJP1670G OI FBG1827P DOA28.12.2019

Dear Christina

I have reviewed the matter and did some check.

Both the insured bike and the TP vehicle were badly burnt as a result of the fire. From various media websites, there were photos showing fire at the front underside of the TP vehicle before it was completely burnt. The police report of the TP driver had stated that the insured bike had slid across the road surface and was on fire before it came to a rest underneath the front portion of the TP vehicle. The insured rider had also stated in his report that the insured bike had slid on the road surface.

Based on the information, the fire to the TP vehicle was a result of fire spreading from the insured bike. The cause of fire to insured bike was probably due to frictional heat generated when the insured bike was sliding across the road surface.

Hope the above clarifies.

Best Regards,

Bryan Ang

Brief Details.

On 25/12/2019 at about 1800hrs, I was driving my car (SJP1670G) along Eng Neo Ave towards Dunearn Road. I saw a motorcycle (FBG1627P) from the opposite lane self-skidded, and immediately stopped my car. The motorcycle skidded and hit the road divider, which caused the motorcycle and the rider to get thrown over the road divider and hit my car, which was already stationary. When the motorcycle skidded, it caught on fire.

The rider rolled and stopped lying on the road. The motorcycle slide down the undercarriage of my vehicle. This caused the fire to spread to my car. I immediately alighted and went to pull my wife out of the car. A passer-by helped to inform Traffic Police and Ambulance. When they arrive at scene, the rider was conveyed to hospital via ambulance.

Traffic Police handed me a case card and advised me to lodge a report. My car and the motorcycle was burnt down to the frame. My car do not have any in-car camera.

Brief Details.

On 28/12/2019 at about 6.20pm, I was riding my motorcycle, FBG1827P, along Eng Neo Ave towards PIE. I was riding within the speed limit. As my motorcycle was on top of the slope, suddenly, my motorcycle wobbled. I checked in-front of my motorcycle for any oil spillage but it was none. Upon going down the same slope, I slowed down and the handling of the motorcycle worsen. As I wanted to reach for the right hand side of the handle bar, I could not afford to grab it. Due to that, I fell from my motorcycle and rolled downwards till the end of the slope. As I was rolling down, I saw my motorcycle was already flung over to the opposite direction and skidded towards the incoming traffic. The next moment I saw my motorcycle was underneath an unknown vehicle and it was on fire.

As I was conscious at that time, I stood up and went over to the said unknown vehicle to help an elderly female passenger whom was in the vehicle out from the car together with the driver. We then brought her to the side of the road further away from the accident scene as I saw that the fire rages bigger. Later on, the fire engine, police, LTA traffic marshal and the ambulance came to the scene. I was conveyed by the ambulance to NUH for treatment. I suffered abrasions on my left and right hand, shoulder, the lower back of my body, stomach and right knee.
