Subject: Reject TP claim - TLM Ref: TP042012020; AIG Ref: TBA; Accident involving SLX5169X(TLM) & SMN1364R(AIG) on 16.01.2020

WITHOUT PREJUDICE

Dear Sir/Madam,

We refer to the above matter.

Insured's statement and sketch (appended below) shows that he was stationary waiting to turn to the main road. However, your client whom was driving against the traffic flow had collided into Insured vehicle.

Accident Sketch Plan

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

Brief Details

My vehicle SMN1364R was stationary at the junction. Then I saw this vehicle SLX5169X moving from opposite direction against the traffic, and I have sounded my horn to him but he still collided into my LH-front portion. The traffic police was at the scene of accident too and requested my camera SD card. I here to lodge a police report for insurance purposes.

Whereas your client's sketch plan (appended below) shows that he was going straight at the main road and Insured had emerged out of the minor to main road into his path.

We are of the view that the Insured's version is credible and consistent because Insured's scene photo (as attached) shows that your client's vehicle was indeed driving against the traffic flow and collided into our Insured stationary vehicle.

As such, we opine that liability is down against your client and we have our principal's instruction to reject the claim and we are unable to look into your client's claim.

We will proceed to close file accordingly.

Thank you.
