Brief Details.

On 17/02/2020 at about 1705hrs, I was driving my vehicle, bearing plate number GBE892S along Sengkang East Avenue. At that time, traffic was heavy and road surface was dry. I had one passenger on board my vehicle at that time.

I was driving on the left lane along the said road, and as I approached a traffic light junction along the said road I noticed that traffic light had turned amber. I then gradually slowed down and managed to come to a stop behind the stop line. I wish to state that my vehicle was stationary for a brief moment and subsequently I felt an impact coming from the rear of my vehicle.

Upon inspection, I discovered V1, one SBS bus, service number 109 bearing plate number SBS6067U, had collided into the rear bumper of my vehicle.

I wish to state that both my passenger and I sustained injuries and received 5 days of MC each. I wish to state that there is in car camera installed however was not recording at that time.
