Dear Mr Mak,

We refer to our telephone conversation.

We are in view that liability is 70% against our Insured driver and 30% against yourself. (refer to the guide we are following)

We will be appointing surveyor to survey your bicycle, please talk to the workshop to fix a convenient time to survey the vehicle.

Hence we await for your email confirmation in order for us to arrange survey to your bicycle basing on the above documents submitted.

For your medical bills that you have submitted to us we will work out together after the confirmation of the repairs to your bicycle.

Hello Jason,

Thank you for the prompt follow up.

Written is my detailed account of the accident that occurred at about 2PM on the 26th of February 2020 :

My spouse and I were on waiting on the Green man at the pedestrian crossing at the cross junction of Joo Chiat Place and Telok Kurau Road. She moved off during the green man and noticed a Taxi negotiating a fast left turn towards her instead of stopping even when the light is in our favour.

She slammed her brakes in the midst of crossing (She has already left the pedestrian pavement and is on the road), and the vehicle drove by, nearly missing her. It was fortunate that she reacted in time or she would have been run over by the moving taxi. I was slightly behind her, and my attention being on the incident, did not have adequate time to re-act to it. I slammed into the left rear side of the taxi, (there was a loud crash) and was thrown forward and almost flung sideways as the taxi was still moving during the impact.

We noticed that the taxi did not stop, despite seemingly slowing down after the crash.

The driver continued driving forward. I got back on my bicycle to pursue the driver and took a picture of his vehicle just in case he fled the scene of the accident. Due to a congestion caused by vehicles turning into Parkway East hospital (it was a one lane road), he was forced to stop. I went to the left side of his car and signalled for him to pull over but he refused to, even though he saw me. He then proceeded to turn into Parkway East Hospital to pick up passengers.

I turned into the hospital with the taxi and stopped my bicycle in front of his car. My spouse caught up with me then. I tried to talk to him about the incident while he was still in his car. He then unwound his window blatantly saying " I did not see ". The incident should have been caught on his front dash camera. He proceeded to wind up his window after that and ignored us. As he seemed unwilling to resolve the matter or communicate with us further, I told him that I will file a report and rode away.

It was then I noticed that my bicycle was not working the way that it was previously.

I called CityCab after the incident to lodge a report after the incident.

I went to see a doctor on the 28th of Feb as I was having a headache, neck, shoulder, and wrist pain since I woke up on Thursday. I did not consult a doctor on Thursday as I hope that I will recover naturally. I was given a 3 Days Medical leave from the Doctor and told to return for a review if the pain persists. I have attached the invoice and MC of my Doctor's consultation.

In regards to the damaged bicycle, I have since sent it to the local distributor/service center for inspection and it turns out that the damage was more extensive than expected to restore the bicycle back to its original condition. I will also have to pay for a full assessment report to be generated (This will not be immediate and will take a couple of days).

I do not have the Invoice of the bicycle at the moment but, the distributor has offered to trace it and prepare it for me. This Bicycle was purchased from Attitude Bikes Pte Ltd. (Also the local distributor/service center of the Bicycle) .The frame is by Nicolai Bicycles, Taylor made with fully customised parts. I will forward you the Invoice and assessment report as soon as I have received it from the bicycle distributor.

I hope that what I have currently will assist your investigations and expedite the claim process. It has been a traumatising experience for my spouse and myself. Additionally, I do not have a working bicycle now which I use in my daily commute to work and riding during my leisure time.

In the meantime, do not hesitate to contact me if you have any questions or if any more details are required.

Regards,
Ann Wei Mak

Dear Doris/Hannah,

Please advise whether there is any video footage in our Insured Vehicle.

We need the video footage to assess liability, as there is a direct bicyclist claimant.

Thanks
