**Brief Details.**

On 04/04/2020 at about 1200hrs, I was driving along KJE towards PIE when suddenly a trailer bearing license plate XD5077R came to a stop, causing a van, which number plate I was unable to get, colliding into the trailer. I was driving my lorry bearing plate GBJ8181G behind the van and managed to come a stop in time however there was a car bearing license plate SLS2057G who was driving behind me was unable to come to a stop and collided into the rear of my lorry. This caused my lorry to move forward due to the impact and hit the van which was in front of me.

The driver and passenger of the van suffered injury on the leg and was conveyed to NTFGH. I had also suffered chest pain due to my chest hitting the steering wheel during the accident. I had also been conveyed to NTFGH and was given 5 day MC from 04/04/2020 - 08/04/2020. No one else was injured. The trailer did not suffer any damage. The front and rear of the van had serious dents. My lorry's front suffered dents on the front and back. The front bonnet of the car suffered major dents.

Police was at scene and issued me a case card reference to J/20200404/0113.

I wish to state that my lorry has in-car camera however it is not working. I did not obtain the other parties' particulars.
