Hi sir,

I received the mail on 6th May .

It has been almost impossible to submit claims to Aig SG which i had tried several times on 3rd Apeil after the accident and then I tried again 1 week later and gave up bec the app kept closing , via phone no one was working due to the CB situation.

The accident happenes on lavender street at 8.20am.

I had tried to squeeze in to the filter lane on the right but as there was not much space i waited for bus infront to move when traffic light changes. However as i was too close when the bus started moving, it rolled back slightly and hit my left side mirror as i was too close.

There waw no damage to the back of the bus.

The driver was mandarin speaker amd liased in mandarin with his supervisor and we left.

I went to suzuki repair place at 2 pandan cresent the same day to arrange for side mirror to be replaced. This was done the following week. It cost \$843 which i decided not to claim.

So i did not hit the bus but rather i was top closed and the roll back of bus broke my side mirror.

I have attached here the pictures.

Thank you.
